Dear Gavin

Not Just Networks

We have been asked to provide a testimonial for Not Just Networks and it is with pleasure that we do so.

We first learnt of Not Just Networks in 2004 when we were in need of an IT Consultant to help us move from Apple Mac computers to PC's in order to utilise the LEAP Documents programme.

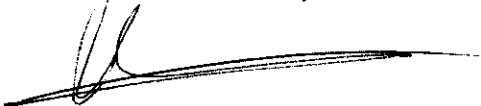

Your professional and knowledgeable approach to the needs of this firm ensured a smooth transition.

Since then we have continued to be guided by you for technical support on the purchase of any computers or software for the office.

You and your staff have always understood the need for a quick resolution to any problems we have encountered.

We would recommend your company to anyone using LEAP Legal Software without any hesitation.

Yours faithfully,
Gibson Howlin Lawyers

Not Just Networks

It is with great pleasure that I provide this testimonial for Not Just Networks.

Meyer Pigdon have utilised the services of Gavin Rewell and the staff at Not Just Networks since 2005. During my time as Practice Manager with Meyer Pigdon, I have worked very closely with them, particularly Gavin and Victor, and have found their assistance to be outstanding. They have seen us successfully upgrade our entire computer network, from start to finish, in a smooth and trouble free manner. Their prompt response to any technical issues, both during and after hours, has been greatly appreciated. It is a great comfort to know that there is someone who is ensuring that our network runs as smoothly as possible.

Of particular importance to me has been their thorough product knowledge and working relationship with the team at Leap. It has been of great assistance during times of change, such as during our transition to Leap Accounting, to have had an IT company offering appropriate advice on the specific technical needs which Leap may require.

I look forward to a long and successful relationship with Not Just Networks.

Kerri Franke

Dear Gavin

Davis Legal and Not Just Networks

I am delighted to provide this testimonial to you for your use in conjunction with your commercial arrangements with LEAP Legal Software.

As you are well aware I have utilised the services of Not Just Networks for a period of approximately 13 years.

During the term of our relationship your organisation has provided mine with ongoing technical support, service and advice in relation to the products and services of others.

I have particularly appreciated the prompt manner in which you and your staff have always made themselves available to assist me, not only in the usual day-to-day work we undertake but also in the few emergency situations in which I have found myself. Your staff, like you, have been responsive to our needs, polite and have always gone out of their way to provide speedy and efficient service in support of the specific needs of this firm.

The length of our relationship is testament to the regard in which I hold Not Just Networks, yourself and your staff. I trust that our relationship will continue for many years.
